Describe the work/ministry that was accomplished by the ministry team.

1. **Pastoral Training:** Over four days we trained 30 pastors and assistant pastors. Our theme of preaching this year was centered on 9Marks of a healthy church. We were also able to deliver to them biblical material published in the Creole language.
2. **Construction:** Part of the mission team worked on several building and grounds projects. An example of this was installing screens around new structures to prevent mosquitoes from entering the dwellings.
3. **Medical/Dental:** A number of people worked daily in the medical clinic operated by the Orphanage and treated patients who suffered from a number of medical reasons. Also, a number of people helped in the distribution of medical mamba program which oversees and distributes food to babies who are malnourished. A few people with dental skills cleaned the teeth of all the orphans and workers in the community.
4. **Education:** Each day a number of people tutored the children of the orphanage in their school work, particularly where they were having trouble understanding concepts.

What advice would you give to other churches who may be considering a similar mission project?

This type of mission church is both rewarding for those we go to serve and those who serve. I am always personally blessed by participating in mission trips overseas. My relationship with God is regularly strengthened.
