

Third Baptist

We left Murfreesboro on Friday August 22 and returned Saturday August 30th with a group of five. We served along three IMB missionaries, two who are members of 3BC and a lifelong friend from MS.

We worked the week in Grace College, a private school grades pre – K through 12th grade. The schools in Chile are required to teach religion classes and we spoke in those classes. We also learned that the teaching to taught as a concept not as we would refer to religion.

The older kids put together salvation bracelets through the process of presenting the plan of salvation. After that we broke the classes up into small groups and talked about what a relationship with Christ looked like. These led to some good and interesting conversations.

The younger group did a craft that talked about the importance of the one thing. The one thing was Christ and how big he was and the love he shared for all of us.

We helped with a movie night for married couples on Tuesday. We watched the movie courageous. The next night we again helped with an event for singles. They had a speaker, and special music. We attended church that meets at Grace College on Sunday.

In all we were in front of 450 kids throughout the week. Trips like these we were able to present the gospel, work alongside local IMB missionaries, and encourage those believers at the school. It was a great week for our team.

Thanks for the support of Concord Baptist Association
